6/23/7

Dear Harold,

Got your letter of 6/18. Figured they were making life hell for you in Dallas when I saw that Marky Waldron tracked you down. Sorry I missed your ABC intvw, but why didn't you buzz me as long as you were in the neighborhood?

Don't think Ray's attempt was insane. Now he gets some sort of trial, at least, so there may have been a therapeutic purpose. He had to know a stunt like that was hopeless.

Suggest you stay away from Russell. Saw his latest work in New Times. He seems willing to accept uncritically whatever anyone tells him so long as he can sell it. Specifically the Meteorcon story, but he's done it before in the Village Voice.

I'm sending you photostats of the CBS articles you requested. Sorry they didn't come out better, but I hope they'll fit your needs.

Sorry you couldn't speak personally with Penny & Carrico, but good to know where they are anyway. Do I take it that you located Clark? You didn't mention anything about him in your letter.

Gotta run but I'll be in touch again soon.

Best regards,
Roger
